

LOCTITE® Multi-Purpose Glass Cleaner

January 2007

PRODUCT DESCRIPTION

LOCTITE® Multi-Purpose Glass Cleaner provides the following product characteristics:

Technology	Solvent based
Chemical Type	Surfactant
Appearance	Clear liquid
Cure	Non-curing
Application	Cleaner
Specific Benefit	<ul style="list-style-type: none"> • VOC compliant • No solid surfactants • Professional strength

LOCTITE® Multi-Purpose Glass Cleaner is an aerosol product made with an original "no streak, non-running, orange scent formula" that quickly deodorizes and cleans window film. Typical applications include glass, mirrors, chrome, windows, stainless steel, aluminum, enamel finishes, and plastics. It is also safe for use on film-tinted windows.

TYPICAL PROPERTIES

Specific Gravity @ 25 °C 0.9
Flash Point - See MSDS

GENERAL INFORMATION

This product is not recommended for use in pure oxygen and/or oxygen rich systems and should not be selected as a sealant for chlorine or other strong oxidizing materials.

For safe handling information on this product, consult the Material Safety Data Sheet (MSDS).

Directions for use

1. Provide adequate ventilation.
2. Shake can thoroughly before use.
3. **NOTE:** This product does not require a ball agitator.
4. Best results are obtained when the product is at room temperature.
5. Holding can 20 to 25 cm from the surface for open area cleaning, press the nozzle and discharge the product on the assembly. Let stand for 30 minutes.
6. Wipe dry with a soft dry cloth.

Not for product specifications

The technical data contained herein are intended as reference only. Please contact your local quality department for assistance and recommendations on specifications for this product.

Storage

The product is classified as flammable and must be stored in an appropriate manner in compliance with relevant regulations. Do not store near oxidizing agents or combustible materials. Store product in the unopened container in a dry location. Storage information may also be indicated on the product container labelling.

Optimal Storage: 8 °C to 21 °C. Storage below 8 °C or greater than 28 °C can adversely affect product properties.

Material removed from containers may be contaminated during use. Do not return product to the original container. Henkel cannot assume responsibility for product which has been contaminated or stored under conditions other than those previously indicated. If additional information is required, please contact your local Technical Service Center or Customer Service Representative.
